## **Purpose and Intent**

The New Kent County School Board establishes expectations for student conduct so that public education is conducted in an atmosphere free of disruption and threat to persons or property and supportive of individual rights (JFC). The New Kent County Code of Student Conduct is designed to protect the health, safety, and welfare of students and to ensure rights of all students to an orderly, civil, and caring environment. The New Kent County School Board expects a high standard of student conduct and recognizes that the schools must balance individual rights with civic obligations. This will ensure a respectful environment conducive to teaching and learning, free of disruption and threat to persons or property; an environment supportive of individual rights where the potential of each student may be realized.

The Code of Student Conduct policies and regulations will apply to students while on school property, when at school-sponsored activities and when going to and returning from school. The Code of Student Conduct may also apply to acts committed away from school property and outside school hours, if the conduct is (i) detrimental to the safety of the school, the well-being of students and staff, or adversely affects the school environment or discipline; or (ii) leads to an adjudication of delinquency or a conviction for an offense listed in §16.1-260 of the Code of Virginia, or a charge that would be a felony if committed by an adult. School personnel, parents, and students share the responsibility to create and maintain this environment.

In the interests of harmony, efficiency, uniformity of interpretation, coordination of effort, and in fairness to all concerned, the Board makes the School Division Policy Manual available to all who are affected by its policies. A hard copy is available for viewing in the Superintendent's Office. The School Division Policy Manual can also be found at <http://newkentschools.org> under the "School Board" tab.

## **Behavior Interventions and Responses**

Behavior modification is a useful tool for staff and parents in helping students to change an undesired behavior in order to start a desired behavior. While supporting students who exhibit undesired behavior, New Kent County Public Schools considers the ABC's of behavior in an effort to provide the student with Positive Behavior Interventions and Supports, also known as PBIS.

### **The ABCs of behavior are:**

*Antecedent* - what is triggering or going on prior to the behavior?

*Behavior* - what behavior is actually occurring?

*Consequences* - what consequence or event is occurring following the behavior?

The positive proactive behavioral approach of New Kent County Public Schools is based on the premise that student behavior can be changed by focusing on the positives. NKCPs staff members are encouraged to reduce negative behavior by using positive reinforcement; which can be done by employing appropriate interventions and responses. The strategies and interventions that are implemented in NKCPs are based on information from collected data and should decrease the number of negative behavior incidents through prevention. Below is a list of some interventions and responses that are available to students, as well as, examples of interventions that may be implemented to support students who are exhibiting behaviors that violate this Code of Student Conduct.

NKCPs is committed to implementing positive behavior support systems and interventions for the successful development of all students at any grade levels. Positive behavioral supports may include, but are not limited to: positive referrals; individual praise and recognition, positive behavioral reward systems, and communication with parents or guardians.

### **Interventions and Consequences**

To determine the appropriate disciplinary intervention and consequence to impose, and to address the inappropriate, unacceptable, and unsuccessful behaviors, it is necessary to evaluate the totality of the circumstances surrounding the incident. The following specifics are to be considered to determine the appropriate assignment of the intervention and/or consequence:

- student's age and maturity
- student's cumulative and school disciplinary record
- previous disciplinary interventions and consequences applied
- student's response to previous interventions and consequences
- nature, severity, and scope of the incident
- frequency and duration of the behavior
- number of persons involved in the incident
- the student's IEP, BIP (Behavioral Intervention Plan), or 504 Plan, if applicable
- the student's response to initial interventions

### **Behavioral Responses for Students in Grades PreK-2**

Different levels of development warrant different levels of interventions and consequences based upon the needs of the students. Steps are taken to align the developmental needs of the students in grade Kindergarten through 2<sup>nd</sup> grade to the consequences and interventions assigned to the specific behavior. All students in New Kent must adhere to the policies regulating student conduct; however, discretion from the principal may be taken. If a student in grades K-2 engages in pervasive or serious aggressive acts that cause injury or threaten the safety of students or staff, the principal may determine the most appropriate interventions including, but not limited to out-of-school suspension.

### **Out of School Suspension Restrictions for Students in Grades PreK-3**

Prohibits, except for drug offenses, firearm offenses, and certain criminal acts, students in preschool through grade three from being suspended for more than three consecutive school days or expelled from attendance at school unless (i) the offense involves physical harm or credible threat of physical harm to others or (ii) the local school board or the division superintendent or his designee finds that aggravating circumstances exist, as defined by the Department of Education.

## Behavior Violations - Interventions and Responses

The Code of Student Conduct specifically outlines fifteen major categories. Code Violation Categories offer administrators guidance when determining the appropriate interventions, supports, and/or responses for student misconduct. Each category represents the range of consequences permitted for specific code violations; however, depending on the circumstances, administrators may provide an intervention, support, or consequence from a lesser category. The consequence level is directly related to the severity of the infraction and is determined during the disciplinary process. Differentiation of Sanctions by Grade Level Options for corrective disciplinary action for misconduct may be differentiated by grade level. Violations marked under SRO (Security Resource Officer) are required to be reported to law enforcement. The maximum disciplinary response is expulsion from school (Virginia Code §22.1-277.06).

## **Student Discipline: Due Process Safeguards (Policy JGD, JGE-R)**

### **Suspensions and Expulsion Defined**

For the purposes of this regulation, unless the context clearly indicates otherwise:

“Short-term suspension” means any disciplinary action whereby a student is not permitted to attend school for a period not to exceed ten school days.

“Long-term suspension” means any disciplinary action whereby a student is not permitted to attend school for 11-45 school days. Long-term suspension is permitted if the school board, superintendent, or the designee finds that aggravating circumstances exist including consideration of the student’s disciplinary history.

“Expulsion” means any disciplinary action imposed by the School Board or a committee thereof, as provided in School Board policy, whereby a student is not permitted to attend school within the school division and is ineligible for readmission for 365 calendar days after the date of the expulsion.

“Exclusion” means the School Board’s denial of school admission to a student who has been expelled or has been placed on a long-term suspension of more than thirty calendar days by another school board or a private school, either in Virginia or another state, or for whom admission has been withdrawn by a private school in Virginia or another state.

### **Short-Term Suspensions**

The principal or assistant principal may suspend a student out of school for ten days or fewer using the following procedures:

#### **Informal Hearing**

Except in an emergency situation requiring the student’s immediate removal, no student shall be suspended from school prior to having an informal hearing before the assistant principal or principal. At such an informal hearing, the student shall be informed as to the alleged violations against School Board Policy and given an opportunity to respond, as described further herein.

If the student denies the charges, the assistant principal or principal shall give the student an explanation of the evidence supporting the allegations and an opportunity to explain his/her version of the facts. If appropriate, the assistant principal or principal may conduct a further investigation into the matter before taking action.

In emergency situations where a student’s presence may pose a continuing danger to persons or property, or an ongoing threat of disrupting the academic process, a student may be suspended from school immediately without the informal hearing set forth above. In such cases, the student shall be afforded the informal hearing as soon as practicable, but not later than 3 school days after the immediate suspension.

## **Notice of Suspension**

Once a decision to suspend is made, the assistant principal or principal shall observe the procedures listed below:

The assistant principal or principal will attempt to notify the parent/guardian as soon as possible by telephone, and shall notify the parent/guardian and student in writing, of the suspension and the reasons thereof. The written notice shall also state any conditions of the suspension, e.g., required parental conference, prohibition on coming onto school property, and the date that the student may return to school. Except in an emergency, a student is not to be dismissed during the school day without prior oral notice and oral permission from the parent/guardian.

The assistant principal or principal shall also inform the parent/guardian in writing that the suspension may be subject to review or appeal as provided in Section 3, Appeal of Short-Term Suspension, below.

A copy of the written notice of a suspension requiring a hearing shall be transmitted by the assistant principal or principal to the superintendent or designee within two school days and shall indicate any recommendation for additional disciplinary actions.

If there is an unexpected school closure students will return on the designated date as assigned. The dates of the suspension will remain on the student's record.

## **Appeal of Short-Term Suspension**

If a student is short term suspended, as defined, "whereby a student is not permitted to attend school for a period not to exceed ten school days", by the assistant principal, the student and/or parent/guardian have the right of appeal in writing to the principal within 5 administrative days of the suspension. If the principal imposed the suspension or upholds the suspension, the principal's decision may be appealed in writing within 5 administrative days to the superintendent or designee for a decision, which appeal shall be decided solely upon the record. The decision of the superintendent or designee is final on short-term suspensions. The failure to appeal the suspension in writing within the prescribed times will constitute a waiver of the right to appeal the short-term suspension.

## **Long-Term Suspensions**

### **Procedures Governing Long-Term Suspensions**

If a student is recommended for long-term suspension, the following procedures shall be observed:

The principal shall notify the student's parent/guardian and the student in writing of the recommendation for long-term suspension and the reasons therefore.

A copy of the written notice of the recommendation for long-term suspension shall be transmitted to the Superintendent's designee within two school days.

The superintendent's designee will conduct a hearing within ten days of the recommendation, unless the student and his/her parent/guardian requests an extension in writing and the extension is granted by the superintendent's designee.

The superintendent's designee may uphold the recommendation or recommend various forms of other disciplinary action, including, but not limited to disciplinary probation and placement in alternative education programs. Agencies that provide services to the student may submit reports of participation to appropriate school personnel. Violation of a disciplinary probation contract may be cause for long-term suspension.

The Parent/Guardian will be provided a copy of the Appeal Process at the conclusion of the hearing.

The superintendent's designee will notify the Parent/Guardian in writing of the outcome of the hearing and will include any conditions, such as drug testing or satisfactory progress in an alternative educational program, placed on the student as a result of the hearing.

### **Appeal of Long-Term Suspension**

If the superintendent's designee decides to long-term suspend the student, the principal, the student, and the student's parent/guardian shall be advised in writing of the decision and of the student's right to appeal the decision to the School Board. The appeal must be made in writing to the superintendent within 5 administrative days from the date of the decision or the right to appeal to the School Board will be waived. Upon a timely appeal, the School Board will decide the appeal on the record within 30 days of the appeal.

## **Expulsion**

### **Procedures Governing Expulsion**

If a student is recommended for expulsion, the following procedures shall be observed:

The principal shall notify the student's parent/guardian and the student in writing of the recommendation for expulsion and the reasons therefore.

A copy of the written notice of the recommendation for expulsion shall be transmitted to the superintendent or designee within two school days.

Once the superintendent or designee receives notification of a recommendation for expulsion, the superintendent or designee shall conduct a preliminary hearing to determine whether to recommend expulsion to the Board. If the superintendent or designee determines to recommend expulsion, the superintendent or designee shall notify the parent/guardian in writing and by certified mail as to the date, time and location for the School Board meeting in which their case will be reviewed.

If the superintendent or designee decides to recommend a lesser disciplinary action for an offense which carries a mandatory recommendation of expulsion and the student and parent/guardian agree to such action, the student and parent/guardian shall indicate, in writing, their agreement to the imposition of such action without further hearing or appeal. In the event the School Board refuses to accept the recommendation of lesser action, the superintendent shall notify the student and parent/guardian of such refusal and of the right of the student and parent/guardian to a hearing before the School Board upon the original recommendation of expulsion. The superintendent shall present recommendations of expulsion or of a lesser disciplinary action to the School Board for its consideration. The student shall remain suspended until the matter is decided by the School Board.

Recommendations of expulsion shall be heard by the full School Board or a committee thereof. A student will only be expelled upon vote of the School Board, or a committee thereof. Any such committee shall be composed of at least three members. If the committee's decision is not unanimous, the pupil or his parents may appeal the decision to the full School Board. The School Board shall decide such an appeal within thirty days.

### **The procedure for the hearing before the School Board, or the committee thereof, shall be as follows:**

The School Board shall determine the propriety of attendance at the hearing of persons not having a direct interest in the hearing. The hearing shall be closed unless otherwise specified by the School Board.

The School Board may ask for opening statements from the principal or his representative and the student or his parent or their representatives and, at the discretion of the School Board, may allow closing arguments.

The parties then present their evidence. Because the principal has the ultimate burden of proof, he presents his evidence first. When available, witness statements regarding the incident will be provided to the School Board

and the student/parents/representative. Any student names in the witness statement, with the exception of the student who is before the School Board will be redacted. At its discretion, the School Board may alter this part of the process if such action is necessary to protect student witnesses.

The parties shall produce such other evidence as the School Board may deem necessary. The School Board shall be the judge of the relevancy and materiality of the evidence.

Exhibits offered by the parties may be received in evidence by the School Board and, when so received, shall be marked and made a part of the record.

The School Board may, by majority vote, uphold, reject or alter the recommendation.

The School Board shall transmit its decision to the student, his/her parents, the principal and the superintendent.

A student who has been expelled from school by the School Board may file for readmission with the superintendent no fewer than 300 and no more than 320 days after the effective date of the expulsion. The School Board will consider and act upon such a petition prior to the expiration of 365 days from the effective date of the expulsion. If the petition is denied, subsequent petitions for readmission may be filed a year later unless a different time period is set by the School Board when ruling on the initial petition for readmission.

### **Admission of Expelled, Long-Term Suspended or Withdrawn Students**

A student who has been expelled or suspended for more than thirty days from attendance at school by a school board or a private school in this Commonwealth or in another state or for whom admission has been withdrawn by a private school in this Commonwealth or in another state may be excluded from attendance in New Kent County Public Schools, regardless of whether such student has been admitted to another school division or private school in the Commonwealth or in another state subsequent to such expulsion, suspension, or withdrawal of admission, upon a finding that the student presents a danger to the other students or staff of the school division after written notice to the student and his parent that the student may be subject to exclusion, the reasons therefore, and of an opportunity for the student or his parent to participate in a hearing before the Superintendent or designee regarding such exclusion. The decision of the superintendent or designee shall be final unless altered by the School Board upon written appeal filed with the superintendent within five administrative days after the superintendent's decision.

Failure to file a written appeal within the prescribed time will constitute a waiver of the right to appeal the decision to the School Board. In the event of a timely appeal, the School Board will decide the appeal upon the record within thirty days of the appeal.

### **Disciplinary Authority of the School Board under Certain Circumstances**

The New Kent County School Board may, in accordance with the procedures set forth in this regulation, require any student who has been (a) charged with an offense relating to the Commonwealth's laws, or with a violation of School Board policies, on weapons, alcohol or drugs, or intentional injury to another person; (b) found guilty or not innocent of an offense relating to the Commonwealth's laws on weapons, alcohol, or drugs, or of a crime that resulted in or could have resulted in injury to others, or for which the disposition ordered by a court is required to be disclosed to the superintendent of the school division pursuant to Va. Code § 16.1- 260.G; (c) found to have committed a serious offense or repeated offenses in violation of School Board policies; or (d) suspended or expelled pursuant to School Board policies, to attend an alternative education program. The New Kent County School Board may require such students to attend an alternative education program regardless of where the crime occurred. The New Kent County School Board may also require any student who has been found, in accordance with the procedures set forth in this regulation, to have been in possession of, or under the influence of, drugs or alcohol on a school bus, on school property, or at a school-sponsored activity in violation of School Board policies, to undergo evaluation for drug or alcohol abuse, or both, and, if recommended by the evaluator and with the consent of the student's parent, to participate in a treatment program.

As used in this section, the terms "charged" means that a petition or warrant has been filed or is pending against a pupil, and "alternative education program" shall include, but shall not be limited to, night school, adult education, or any other education program designed to offer instruction to students for whom the regular program of instruction may be inappropriate.

## **Assignment of a Student to an Alternative Education Program**

The division superintendent or his designee may require a student to attend an alternative education program consistent with the provisions of section E (above), after (a) notice of the opportunity for the student or his parent to participate in a hearing to be conducted by the division superintendent or his designee regarding the alternative education placement, and (b) written notice to the student and his parent that the student will be required to attend an alternative education program. The decision of the superintendent or his designee regarding such an alternative education placement shall be final unless altered by the School Board upon a timely appeal. The appeal must be made in writing to the superintendent within 5 administrative days from the date of the superintendent's (or designee) decision or the right to appeal to the School Board will be waived. Upon a timely appeal, the School Board will decide the appeal on the record within 30 days of the appeal. Applicable procedures for students with disabilities will be followed. See Policy JGDA.

## **Disciplining Students with Disabilities (Policy JGDA)**

Students with disabilities who violate the student code of conduct, or engage in conduct for which they may be disciplined will be disciplined in accordance with this policy. Additionally, the regular disciplinary procedures must be followed. School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability as a result of discipline.

### **Long-Term Suspensions, Expulsions or Short-Term Suspensions Which Constitute a Pattern are Long Term Removals and Considered a Disciplinary Change in Placement**

For the purpose of removing students with disabilities from their current educational placements, a disciplinary change in placement occurs when:

the removal is for more than 10 consecutive school days at a time; or

Pattern analysis: there is a series of removals during the school year, each of which is for 10 days or less and they cumulate to more than 10 days in a school year and constitute a pattern because of:

the length of each removal,

the proximity of the removals to each other,

the total time the student is removed,

the child's behavior is substantially similar to the child's behavior in the series of removals for previous incidents in the school year, and

the pattern analysis determination is made and documented by the administration.

If the disciplinary action will result in a long term removal, the student's parents must be sent notice of the recommendation of discipline the same day as the decision is made for the disciplinary change in placement and must be provided with a copy of the procedural safeguards. The procedures outlined in Section IV must also be followed.

A parent may request a due process hearing to challenge the pattern analysis determination. For any disciplinary change in placement, a Manifestation Determination Review ("MDR") must be held and the Individualized Education Program (IEP) team must meet to determine the educational services to be provided during the long-term removal.

## **Short-Term Suspensions**

A short-term suspension is a suspension of 10 consecutive days or less at a time.

School authorities may remove a student with a disability from the student's current educational setting for 10 school days cumulative in a school year to the extent that such removals would be applied to students without disabilities and for additional short-term suspensions during the school year provided no pattern exists. Short term suspensions which constitute a pattern will be handled through long term removal procedures.

No MDR or IEP meeting is required for a short term removal, although an IEP meeting may be held if needed. Educational services are provided for each day of removal after the first ten days of removal in a school year. Educational services should also be provided during the first ten days of removal if services are provided to a student without disabilities in the same circumstances.

## **Functional Behavior Assessments and Behavior Intervention Plans**

If the MDR team members determine that a manifestation exists, the IEP team must:

Conduct a Functional Behavioral Assessment (FBA) and implement a Behavioral Intervention Plan (BIP), if no FBA was conducted previously; or,  
If the student already has an FBA and a BIP in place, review and modify the BIP, as necessary to address the behavior.

If a manifestation is found, the school division and the parent may still agree to a change in placement made through the IEP process. Without this agreement, the student must return to the placement from which the student was removed. Nothing in this section limits the authority of the school division for the first ten days of removal in a school year or for applicable forty-five school day removals.

If the MDR team members determine that there is no manifestation, then the IEP team should decide whether there is a need to conduct or review an FBA and BIP.

## **Educational Services While Disciplined**

For the first 10 days of removal in a school year, the School Board is not required to provide educational services to the student with a disability if services are not provided to students without disabilities who have been similarly removed.

After the first 10 days of removal in a school year, the School Board shall provide educational services to the student during the period of removal. The services must enable the student to:

continue to progress in the general curriculum, although in another setting, and  
make progress toward meeting the goals set out in the student's IEP.

The determination of the educational services is made by the IEP team if the discipline constitutes a change in placement. For a short term removal which is not a change in placement, the determination of the education services is made by school personnel in consultation with the student's special education teacher.

## **Manifestation Determination Review**

When a disciplinary action is proposed that will result in a disciplinary change of placement, an MDR shall be conducted within 10 school days after the date on which the decision to take disciplinary action is made. This review shall be conducted by the Manifestation Team which consists of a local educational agency representative, the parent(s) and relevant members of the IEP team (as determined by the parent and the school division).

The Manifestation Team may determine that the behavior of the student was not a manifestation of such child's disability only if the Team:

considers all relevant information in the student's file, including the student's IEP, any teacher observations, and any relevant information supplied by the parents; and

determines that:

- the conduct in question was not caused by, or did not have a direct and substantial relationship to, the student's disability; and
- the conduct in question was not the direct result of the school division's failure to implement the IEP.

### **Disciplinary Action Following an MDR Determination that there is No Manifestation**

If the behavior is not a manifestation of the student's ability, the disciplinary procedures will be applied in the same manner as applied to students without disabilities. The student must continue to receive the educational services necessary to enable the student to continue to participate in the general curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP. In addition, the special education and disciplinary records of the student must be made available to the person who makes the final decision regarding the imposition of discipline.

A parent may request an expedited due process hearing if the parent disagrees with the determination that the behavior was not a manifestation of the student's disability or if the parent disagrees with any decision regarding the placement of the student while disciplined. During any appeal, the student will remain in the interim alternative education setting unless reversed by decision of the hearing officer; provided, however, the student may still serve the balance of any applicable forty-five school day removal. The placement may also be changed through the IEP process with the consent of the parent.

### **Disciplinary Action Following MDR Determination that there is a Manifestation**

A student with a disability whose behavior is determined to be a manifestation of the student's disability may not be disciplined except to the extent a removal is otherwise permitted by law. The student may also be removed to a more restrictive placement by following change in placement procedures through the IEP process. The IEP team must conduct or review an FBA and/or BIP as provided in Section III.

### **Interim Alternative Educational Settings for Weapons, Drugs and Infliction of Serious Bodily Injury**

Students with disabilities 1) who carry or possess a weapon to or at school, on school premises, or to or at a school function under the jurisdiction of a state or local educational agency; 2) who knowingly possess or use illegal drugs or sell or solicit the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency; or 3) who inflict serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency may be disciplined pursuant to Policies JFCD – Weapons in School, JFCF – Drugs in School or JGDB – Discipline Students with Disabilities for Infliction of Serious Bodily Injury and may be placed in an interim alternative educational setting for up to forty-five school days. These options are available even if a manifestation exists. If no manifestation is found, the student may be disciplined to the extent a student without disabilities would be disciplined.

Weapons, controlled substance and serious bodily injury have the meaning given under state regulations in 8 VAC 20-81-10.

Any interim alternative educational setting shall be selected, by the IEP team, so as to enable the student to continue to progress in the general curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP. The student must also receive, as appropriate, an FBA, behavioral intervention services and modifications designed to address the behavior so it does not recur.

### **Change of Placement by Hearing Officer**

In addition to the other options for removal, a hearing officer through an expedited due process hearing requests by the school division, may order a change in the placement for a student with a disability to an appropriate interim alternative educational setting for not more than forty-five (45) school days if the hearing officer determines that maintaining the current placement of such student is substantially likely to result in injury to the student or others. Additional forty-five (45) school day removals may be authorized by the hearing officer as appropriate.

#### Placement During Appeals

During the course of any appeals, the student's placement shall be in accordance with the provisions of state and federal law unless the parent and the school division agree otherwise. Students with disabilities are also entitled to the due process rights available to a non-disabled student who is subject to discipline. In addition, students with disabilities are entitled to the due process procedures available under the Individuals with Disabilities Education Act, as amended, and any state procedures.

### **Students Not Yet Identified as Disabled**

Students for whom the parents assert there is a disability but who have not yet been identified as disabled may be subjected to the same measures applied to students without disabilities if the school division did not have knowledge of the disability before the behavior that precipitated the disciplinary action occurred.

A school division will be found to have knowledge of the student's disability if, before the behavior that precipitated the disciplinary action occurred, one of the following occurred:

- the parent expressed concern in writing to supervisory or administrative personnel of the school division, or to a teacher of the student, that the student is in need of special education and related services; or
- the parent requested an evaluation of the student for special education eligibility; or
- the student's teacher or other school personnel had expressed specific concerns about a pattern of behavior demonstrated by the student directly to the director of special education or to other supervisory personnel of the school division that suggests the presence of a disability.

A school division would not be found to have knowledge of a student's disability if:

- the parents refused to allow an evaluation of the student or refused special education services; or
- the student was evaluated and found not eligible for special education services.

If a request for an initial evaluation is made during the period a student is subject to disciplinary measures, the evaluation shall be conducted in an expedited manner. If the student is found eligible as a child with a disability, taking into consideration information from the evaluation conducted by the school division and information provided by the parents, then the student must be provided special education and related services, although in another setting. Pending the results of the evaluation, the student shall remain in the educational placement determined by the school authorities which placement can include suspension or expulsion without services.

### **Disciplining Certain Section 504 Students Who Violate Alcohol and Drug Policies**

Students who are identified as disabled solely under Section 504 of the Rehabilitation Act and who are currently engaging in the illegal use of drugs or alcohol may be disciplined for violating the division's alcohol and drug policies to the same extent as non-disabled students. The student is not entitled to a due process hearing under special education procedures in this circumstance but does retain the protections afforded to regular education students.

### **Reporting of Crimes**

Nothing in these procedures prevents the reporting of a crime to appropriate authorities or prevents state law enforcement and judicial authorities from exercising their responsibilities.

### **Discipline of Students with Disabilities for Infliction of Serious Bodily Injury (Policy JGDB)**

A student with a disability may be removed without parent consent and assigned to an interim alternative education program by school personnel for not more than forty-five (45) school days when the student has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency. This option is available regardless of whether a manifestation exists. If no manifestation is found, the student may be disciplined to the extent that a student without disabilities would be disciplined. In addition, the applicable procedures of Policies JGDA and JGD/JGE will be followed.

The term serious bodily injury has the same meaning given the term "serious bodily injury" under paragraph (3) of subsection (h) of section 1365 of title 18 of the United States Code.

## Academic Offenses

Academic offenses include cheating or plagiarism. Cheating or plagiarism includes working with another student or individual in a collaborative fashion when consent is not given by the teacher to do so.

### Secondary Level Disciplinary Response

Second Offense	Zero on the assignment, disqualification from any appropriate academic honor societies, removal and disqualification from holding position of class/club officer for the current academic year, loss of exam exemption, guardian contact, 1-3 days of In-School Suspension

Additional offenses will result in appropriately escalating consequences as determined by the school administration.

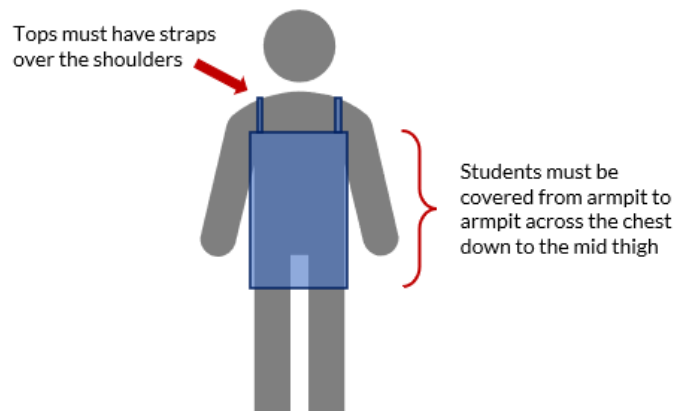

If the academic offense also involves the use of school technology and involves a violation of the NKCPSS Acceptable Use Policy, additional disciplinary consequences may apply.

**Portable Electronic Communication Devices****Generally**

While New Kent County Public Schools acknowledge the benefits of technology and portable communication devices to access instructional information, it also recognizes that inappropriate use can result in disruptions to the school day. Therefore, New Kent County Public Schools will utilize the following regulations regarding the possession and usage of such devices by students during the school day.

**Definitions**

“Portable electronic communication device” means any mobile telephone, including cell phones, satellite phones, and Wi-Fi phones, smartwatch, earbuds, electronic game, or other computing device with mobile data access.

Students may express those opinions verbally, in writing, or through peaceful protest; however, any such expression is limited so as not to create a significant disruption to the school climate and/or learning environment. Large-scale and/or planned student walkouts as a means of protest have a significant impact on the school’s climate, student safety, and the learning environment and are therefore prohibited.

Disciplinary Responses to Student Walkouts

Students involved in large-scale and/or planned walkouts will receive a disciplinary referral under SBAR code BSO4: Failure to be in one’s assigned place and may receive any of the disciplinary consequences at Level 1 or Level 2 with the exception of in-school suspension.

#### **Expulsion**

A student who is determined to have brought a controlled substance or imitation controlled substance onto school property or to a school-sponsored activity shall be expelled in accordance with Policy JGD/JGE. The School Board may determine, based on the facts of the particular case that special circumstances exist and another form of discipline is appropriate. In addition, the School Board authorizes the superintendent or superintendent’s designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Any disciplinary action imposed pursuant to such a review must be taken in accordance with Article 3 of Chapter 14 of Title 22.1 of the Code of Virginia.

#### **Prevention and Intervention**

Any student who violates this policy shall participate in the prevention and intervention activities identified in the New Kent County school division’s drug and violence prevention plan.

The School Board may require any student who is in possession of or under the influence of drugs at school or school-sponsored activities to: (1) undergo evaluation for drug abuse and (2) participate in a drug treatment program if recommended by the evaluator and if the student’s parent consents.

#### **Required Reporting to Parents and Local Law Enforcement**

The Principal shall report a violation of this policy to parents and local law enforcement as required by Policy CLA.

#### **Students with Disabilities**

Students with disabilities are subject to the provisions of Section I of this policy and may be disciplined to the same extent as a nondisabled student provided the manifestation review committee determines that the violation was not a manifestation of the student’s disability. The provisions of Policy JGDA will be followed in addition to the regular disciplinary procedures.

Additional authority to remove a student with a disability from school for a drug violation.

In addition to the authority granted in subsection above, a student with a disability may be removed without parent consent and assigned to an interim alternative education program by school personnel for not more than forty-five (45) school days when the student knowingly possesses or uses illegal drugs, or sells or solicits the

sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency. This option is available regardless of whether a manifestation exists. The removal should not be in excess of any removal imposed on a student without a disability for the same offense.

For purposes of this forty-five (45) school day removal, “illegal drugs” and “controlled substance” are defined as follows:

Controlled substance means a drug or other substance identified under schedules I, II, III, IV, or V in section 202© of the Controlled Substances Act at 21 U.S.C. section 812©.

The disciplinary action for bringing a firearm to school or to a school sponsored activity will be recommended for expulsion to the School Board for at least one year in accordance with Policy JGD/JGE. Violation of this policy shall require that proceedings for the discipline of the student involved be initiated immediately by the principal.

Such weapons include, but are not limited to:

- any pistol, shotgun, stun weapon, laser, revolver, or other firearm listed in Va. Code § 22.1-277.07, designed or intended to propel a projectile of any kind, including a rifle,

whether a disciplinary action other than expulsion is appropriate. If it is determined by the superintendent or superintendent's designee that a disciplinary action other than expulsion is appropriate, such disciplinary action is taken in accordance with Article 3 of Chapter 14 of Title 22.1 of the Code of Virginia.

### Students with Disabilities

Students with disabilities are subject to the provisions of Section I of this policy and may be disciplined to the same extent as a nondisabled student provided the manifestation review committee determines that the violation was not a manifestation of the student's disability. The provisions of Policy JGDA Disciplining Students with Disabilities will be followed in addition to the regular disciplinary procedures.

Additional authority to remove a student with a disability from school for a weapons violation.

In addition to the authority granted in subsection above, a student with a disability may also be removed without parent consent and assigned to an interim alternative education program by school personnel for not more than forty-five (45) school days when the student carries or possesses a weapon to or at school, on school premises, or to or at a school function under the jurisdiction of a state or local educational agency. This option is available regardless of whether a manifestation exists. The removal should not be in excess of any removal imposed on a student without a disability for the same offense.

For purposes of this forty-five (45) school day removal, the weapon must meet the following definitions:

“a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than 2 ½ inches in length”.

### **Search and Seizure (Policy JFG)**

A search involves an invasion of privacy. Whether a search of a student is permissible depends on a balancing of the student's right to privacy and freedom from unreasonable search and seizure against the school division's responsibility to protect the health, safety and welfare of all persons in the school community and to carry out its educational mission. To maintain order and discipline in the schools and to protect the health, safety and welfare of students and school personnel, school authorities may search a student, student belongings, student lockers or student automobiles under the circumstances outlined below and may seize any illegal, unauthorized, or contraband materials discovered in the search.

As used in this policy, the term “unauthorized” means any item dangerous to the health or safety of students or school personnel, or disruptive of any lawful function, mission or process of the school, or any item described as unauthorized in school rules available beforehand to the student.

The locations at which searches of students and student property may be conducted are not limited to the school building or school property. Searches may be conducted wherever the student is involved in a school-sponsored function.

#### Personal Searches

A student's person and/or personal effects (e.g. purse, book bag, etc.) may be searched by a school official whenever the official has reasonable suspicion to believe that the student has violated or is about to violate the law or a school rule and that the search will yield evidence of the violation.

All individual searches of students must be based on reasonable suspicion. In order to be permissible, the search must be:

Justified at its inception and

Reasonably related in scope to the circumstances justifying the search.

An individual search is justified at its inception when a school official has reasonable grounds, based on the totality of the known circumstances, for suspecting that the search will reveal evidence that the student has violated or is violating either the law or the rules of the school. A search is reasonable in scope when it is reasonably related to the objectives of

the search and is not excessively intrusive in light of the age and sex of the student and the nature of the suspected infraction.

A personal search may include requiring a student to be scanned with a metal detector.

A pat-down search of a student may only be conducted if a school administrator has established a high level of reasonable suspicion that evidence will be found to corroborate suspicion that a law or school rule has been broken. If a pat down search of a student's person is conducted, it will be conducted in private by a school official of the same sex and with an adult witness of the same sex present.

Strip searches involve an extreme intrusion into the rights of a student and may only be conducted when an extremely serious situation exists requiring immediate action because of an imminent threat of death or great bodily injury to a person or persons. If a strip search is necessary the school official should contact the appropriate law enforcement official, and the search should be conducted by a sworn law enforcement officer of the same sex, in the presence of a same sex adult witness. School officials may only conduct a strip search in cases where it is necessary to avoid the imminent threat of death or great bodily injury to the student or another person. If a strip search must be conducted by a school official, it must be by a same sex official with a same sex adult witness, and the school official must have the prior approval of the superintendent or superintendent's designee, unless the health or safety of the student is endangered by the delay.

### Locker and Desk Searches

Student lockers and desks are school property and remain at all times under the control of the school; however, students are expected to assume full responsibility for the security of their lockers and are responsible for the content of their assigned locker at all times. Periodic general inspections of lockers and desks may be conducted by school authorities for any reason at any time without notice, without student consent, and without a search warrant.

### Automobile Searches

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains authority to conduct routine patrols of student parking lots and inspections of the exteriors of student automobiles on school property. The interiors of student vehicles may be inspected whenever a school official has reasonable suspicion to believe that the student has violated or is about to violate the law or a school rule and that the search will yield evidence of the violation, or that illegal or unauthorized materials or other evidence of illegal or otherwise prohibited activities are contained inside the automobile. Such patrols and inspections may be conducted without notice, without student consent, and without a search warrant.

### Computer Searches

The school computer system, as defined in Policy GAB/IIBEA Acceptable Computer System Use, is school property. Students are only authorized to use the school's computer system and other similar educational technology consistent with the educational mission of the school and in accordance with Policy GAB/IIBEA Acceptable Computer System Use. School officials may search school computers, software and internet access records at any time for any reason and without student consent.

### Consent Searches

If a student gives a school official consent for a search the school official does not need to demonstrate reasonable suspicion. A student's consent is only valid if given willingly and with knowledge of the meaning of consent.

Students should be told of their right to refuse to be searched, and students must not perceive themselves to be at risk of punishment for refusing to grant permission for the search.

### Seizure of Illegal Materials

If a properly conducted search yields illegal or contraband materials, such findings shall be turned over to proper legal authorities for ultimate disposition.

### **Teacher Removal of Students from Class (Policy JFCA)**

Teachers have the initial authority to remove students from class for disruptive behavior. “Disruptive behavior” means a violation of School Board policies or regulations issued by the superintendent governing student conduct that interrupts or obstructs the learning environment.

#### **Criteria for Removal**

In order for a teacher to remove a student from class for disruptive behavior:

removal of the student from the class must be necessary to restore a learning environment free from interruptions and obstructions caused by the student’s behavior,

interventions by the teacher and/or administrators have been attempted and failed to end the student’s disruptive behavior, and

notice of the student’s disruptive behavior and the opportunity to meet with the teacher and/or school administrators must have been provided to the student’s parents as described below.

When all of the above criteria have been satisfied, a teacher may remove a student from class.

### **Requirements for Incident Reports**

Teachers should write incident reports regarding all incidents of disruptive behavior. The reports will be filed with the school administration and provided to the student’s parents within 24 hours of the incident. The parents must be given the opportunity to meet with the teacher and/or school administrator to discuss the student’s behavior and the possible consequences if the behavior continues. The teacher will document, in writing, attempts to request and encourage the parents to meet with him or her or school administrators.

A student may not be removed from class for disruptive behavior unless two prior written incident reports have been filed with school administrators and provided to the student’s parents concerning two prior incidents of disruptive behavior. Upon removal, the teacher shall file a “Student Removal Form” ( JFCA-Form) with school administrators. The teacher will include any other documentation supporting the removal including, but not limited to the previous two incident reports.

#### **Procedures for Written Notification of Student and Parents**

The teacher shall provide copies of any incident report and Student Removal Form to the student and the student’s parents and notify them of the opportunity to meet with the teacher and/or school administrators to discuss the behavior and the possible consequences if the behavior continues. Such notice shall be provided within twenty-four hours of each incident. The teacher shall document, in writing, attempts to request and encourage the parents to meet with school administrators and/or the teacher. Such notice and documentation shall be required for each incident report and student removal.

#### **Guidelines for Alternative Assignment and Instruction of Removed Students**

The Principal shall determine the appropriate placement of any student removed from class by a teacher. The Principal may:

- assign the student to an alternative program
- assign the student to another class
- send the student to the Principal’s office or study hall. If the Principal chooses this option, the teacher shall provide and evaluate appropriate make-up work for the student.

- suspend the student or recommend the student for expulsion. If the Principal chooses this option, alternative instruction and assignment, if any, shall be provided according to School Board policy and in the case of students with disabilities, in accordance with federal law.
- return the student to class in accordance with the procedures below.

#### Procedure for the Student’s Return to Class

The Principal shall determine, after consultation with the teacher, the duration of the student’s removal from class. The Principal shall notify the teacher of the decision to return the student to class. If the teacher disagrees with the Principal’s decision to return a student to the class:

- the teacher and principal shall discuss the teacher’s objection to returning the student to class and the principal’s reason for returning the student.
- the teacher, after meeting with the Principal, may appeal the Principal’s decision to the Superintendent or designee within one school day. The incident reports and removal form must accompany the appeal. After discussion with the Principal and teacher or receiving their written comments, the decision of the Superintendent or designee shall be final. The decision shall be made within forty-eight hours of the teacher’s appeal. During the appeal process, the student shall not be returned to class and the Principal will determine an appropriate placement for the student.

Once the decision has been made to return the student to class, the teacher and Principal shall develop a plan to address future disruptive behavior.

#### Other Provisions

The Principal shall ensure that students removed from class under this policy continue to receive an education in accordance with School Board policies.

Application of this policy to students with disabilities shall be consistent with federal and state law and regulations as well as School Board policy regarding students with disabilities.

Teacher deficiencies in classroom management shall be addressed in teacher evaluations pursuant to Policy GNC Evaluation of Professional Staff.

This policy does not limit or restrict the ability of School Board employees to apply other policies, regulations or laws for maintaining order in the classroom.

#### **Restraint and Seclusion of Students (Policy JM)**

Physical and mechanical restraint and seclusion may only be used consistent with this policy.

As used in this policy,

“physical restraint” means the use of physical force to restrict the free movement of all or a part of a student’s body. Excluded from this definition is the use of procedures the use of which is documented in the student’s Individualized Education Plan (IEP), Section 504 plan, or behavior intervention plan;

“Mechanical restraint” means the use of any device or material attached to a student’s body that restricts freedom of movement or normal access to any portion of the student’s body and that the student cannot easily remove. Excluded from this definition is the use of devices or materials the use of which is documented in the student’s Individualized Education Plan (IEP), Section 504 plan, or behavior intervention plan;

“seclusion” means the confinement of a student alone in a separate enclosed space, in a manner that prevents the student from leaving. Seclusion is permitted in accordance with a student’s IEP, Section 504, or behavior intervention plan, or to prevent injury to the student or others. When a student is placed in seclusion, he or she will be monitored by a staff member in close proximity. It is mandatory that the staff member sees or observe students. A student placed in

seclusion will be released from seclusion upon cessation of the behaviors that led to the seclusion; after a reasonable period of time in the seclusion setting during which it is determined that the seclusion will not be effective; or in accordance with the student's IEP, Section 504 plan, or behavior intervention plan. The space used for seclusion must be appropriately lighted, ventilated, and heated or cooled, and free from objects that unreasonably expose the student or others to harm.

Physical restraint, mechanical restraint, and seclusion may only be used by a staff member who has been trained in the proper use of the technique applied or device utilized and should only be used in the following circumstances:

- as needed to protect an individual from his or her own actions;
- as needed to protect others from injury by the restrained person;
- as needed to gain possession of weapons or other dangerous objects on the person or within the control of a student;
- as needed for self-defense;
- as needed to escort a student safely from one area to another;
- when using seat belts or other safety restraints to secure a student during transportation;
- as authorized by the Code of Virginia, or
- as authorized by a student's IEP, Section 504 plan or behavior intervention plan.

Nothing in this policy is intended to limit the application of Va. Code § 22.1-279.1 which provides generally that:

No teacher, principal or other person employed by the School Board shall subject a student to corporal punishment. This prohibition of corporal punishment shall not be deemed to prevent

- the use of incidental, minor or reasonable physical contact or other actions designed to maintain order and control;
- the use of reasonable and necessary force to quell a disturbance or remove a student from the scene of a disturbance which threatens physical injury to persons or damage to property;
- the use of reasonable and necessary force to prevent a student from inflicting physical harm on himself;
- the use of reasonable and necessary force for self-defense or the defense of others;
- the use of reasonable and necessary force to obtain possession of weapons or other dangerous objects or controlled substances or paraphernalia which are upon the person of the student or within his control;
- physical pain, injury or discomfort caused by participation in practice or competition in an interscholastic sport; or
- participation in physical education or an extracurricular activity.

### Documentation and Notice to Parents

A parent or guardian will be verbally notified within 24 hours of an incident occurring. Written notification will be provided within a reasonable period of time, not to exceed 5 school days, after any use of

- physical restraint; or
- seclusion.

The staff member who utilizes restraint or seclusion will be responsible for making a record of information regarding its use including the date, time, duration, precipitating behavior, outcome and other pertinent observations. Documentation is not required when using mechanical devices that are authorized and utilized for the student's safety or physical support such as bus harnesses, lap belts, rifton chairs and similar devices. This policy does not permit the use of a restraining device to limit a student's mobility when that device is not ordinarily used with the student.

### **General Instructions for School Bus Riders**

These instructions are designed to assist in providing safe transportation, good citizenship training, and economical bus operation for the pupils of the New Kent County Public Schools. The School Board is requesting the cooperation of students, parents, and teachers in carrying out these instructions and rules.

To maintain the bus schedule, students must be at the stop at least 5 minutes before the bus is due to arrive. The driver is not permitted to wait for late students. Students are to stand at the edge of the roadway away from traffic lanes.

When approaching the stopping place for the bus, walk toward the traffic.

It is essential we respect people and their property while waiting at the bus stop. Also, do not play on the street, sidewalk, or highway.

When the bus arrives, students must be ready to board the bus in an orderly manner. Avoid crowding and disturbing others.

Students may not ride a bus other than their own, unless they have a note from a parent or guardian and signed by a school administrator or the transportation director.

The rear door is designed to be used for exit in emergency only. It must remain closed at all other times.

Pupils are required to pay for any willful damage and vandalism to the school bus and its equipment. Payment must be made immediately in accordance with rates set by the School Board.

Live animals of any type, glass containers, inflated balloons, weapons of any type and water guns are not allowed on the bus or at the bus stop.

Musical instruments and school projects too large to be carried on a student's lap or placed under the seat may not be transported on a school bus.

Our established traffic control program at each school involves signs directing that there be "no through traffic when buses are loading or unloading" in front of schools. The driveway directly in front of each school building is considered a state maintained roadway and traffic patterns and violations of the same will be enforced by the local authorities. Students driving vehicles will be released in between periods of movement of buses. In response to safety regulations from the State Board of Education, a request is being made that parents (or their designee) accompany their young children to and from the bus stop.

The Transportation Director or designee will notify the New Kent Sheriff's Department if they know of any reason students will be late getting to their stops on the activity buses. The Sheriff's Department will have the mobile and home phone numbers of these individuals.

If parents have left the pick-up area due to the bus being late, the school bus driver will be responsible for keeping the student on the bus and not allowing him/her off in an unsupervised area. Drivers will then contact the Transportation Director or Service Manager by radio.

New Kent County Public Schools makes every effort to provide safe and efficient transportation for students to and from school. Due to the student rider population, most buses are nearly filled to capacity. Because of this, bus passes to ride alternate buses must be seriously restricted. We are asking that requests to ride another bus in order to attend parties, "sleep-overs", competitions, scout meetings, piano or dance lessons, etc. not be made.

A parent or an authorized person must be present at the bus stop for drop-off of students in Pre-K through 1st grade. If a parent/authorized person is not present, the child will be returned to his/her school for parent pickup. If the student is returned to school 3 or more times the student will be removed from the bus and the parent will be required to meet with the principal and the Transportation Director before the student is allowed to ride the bus again.

Requests for students to ride a bus other than their regularly assigned bus must be made in writing and turned into the front office before homeroom. Request forms are available at each school and on the school division's website. Approval is dependent upon bus capacity. If such a request should be denied, school personnel will immediately notify the student and the parent/guardian.

The Transportation Department will not accept phone calls to change a student's stop location. If for any reason a parent cannot be at the bus stop or at home, the student will be brought back to school for parent pick-up.

Loading – anytime students need to cross in front of the bus to load, they must wait until the bus has come to a complete stop, ensure that all traffic has stopped, and receive a hand signal from the driver alerting them that it is safe to cross. Students should remain visible to the driver at all times and should **never** cross behind the bus.

In addition to the rules on the bus, students must also comply with the following:

- Show respect at all times and follow all directions from the driver and/or bus assistant
- No eating or drinking
- No profanity or abusive language
- No smoking or lighting anything on the bus
- No spitting or chewing tobacco
- Do not litter or throw objects
- Students must stay seated until the bus comes to a complete stop
- Keep hands and arms inside the vehicle at all times

As a general reminder, students must follow all rules as outlined in the Student Code of Conduct as a bus stop is considered to be property of New Kent County Public Schools. In addition, all rules must be enforced from door-to-door which means, the moment that the student leaves home until the student returns to the home location.

Please be advised that it is unlawful for unauthorized persons to board a school bus. Violations of this policy are considered trespassing and will be dealt with as such.

**Bus Discipline (Policy JFCC-R)**

In view of the safety factors involved in student transportation, the driver is in full authority to implement the schools' policy over the bus and its passengers. Students are required to follow bus rules and respond to the requests of the driver or face possible loss of bus riding privileges and/or other appropriate discipline code dispositions as designated for the various offenses.

It takes total cooperation of the driver, students, and parents to make a safe transportation program. All offenses listed in the uniform discipline code are applicable to behavior on the school buses. In addition, the instructions and rules on the following pages are incorporated and applied within this discipline code.

Audio-video cameras will be used on buses to assist in monitoring behavior.

There are no state laws that require school divisions to provide bus transportation. Thus riding a bus is not a right, but a privilege extended to the families of our county by the New Kent School Board.

Bus Discipline Offenses

- Argumentative and disrespectful toward bus drivers
- Eating or chewing gum on bus
- Failure to obey bus driver
- Out of seat on bus
- Pushing on bus
- Putting head or arms outside bus window
- Threatening bus driver
- Throwing items from bus
- Throwing items on bus
- Vandalism of bus

### **Compulsory School Attendance**

The following information regarding school attendance is excerpted from the Code of Virginia. § 22.1-254. Compulsory attendance required; excuses and waivers; alternative education program attendance; exemptions from article.

Except as otherwise provided in this article, every parent, guardian, or other person in the Commonwealth having control or charge of any child who will have reached the fifth birthday on or before September 30 of any school year and who has not passed the eighteenth birthday shall, during the period of each year the public schools are in session and for the same number of days and hours per day as the public schools, send such child to a public school or to a private, denominational, or parochial school or have such child taught by a tutor or teacher of qualifications prescribed by the Board of Education and approved by the division superintendent, or provide for home instruction of such child as described in § 22.1-254.1.

As prescribed in the regulations of the Board of Education, the requirements of this section may also be satisfied by sending a child to an alternative program of study or work/study offered by a public, private, denominational, or parochial school or by a public or private degree-granting institution of higher education. Further, in the case of any five-year-old child who is subject to the provisions of this subsection, the requirements of this section may be alternatively satisfied by sending the child to any public educational pre-kindergarten program, including a Head Start program, or in a private, denominational, or parochial educational pre-kindergarten program.

Instruction in the home of a child or children by the parent, guardian, or other person having control or charge of such child or children shall not be classified or defined as a private, denominational or parochial school.

The requirements of this section shall apply to (i) any child in the custody of the Department of Juvenile Justice or the Department of Corrections who has not passed his eighteenth birthday and (ii) any child whom the division superintendent has required to take a special program of prevention, intervention, or remediation as provided in subsection of § 22.1-253.13:1 and in § 22.1-254.01. The requirements of this section shall not apply to (a) any person 16 through 18 years of age who is housed in an adult correctional facility when such person is actively pursuing the achievement of a passing score on a high school equivalency examination approved by the Board of Education but is not enrolled in an individual student alternative education plan pursuant to any child who has obtained a high school

diploma or its equivalent, a certificate of completion, or has achieved a passing score on a high school equivalency examination approved by the Board of Education, or who has otherwise complied with compulsory school attendance requirements as set forth in this article.

A school board shall excuse from attendance at school:

Any pupil who, together with his parents, by reason of bona fide religious training or belief is conscientiously opposed to attendance at school. For purposes of this subdivision, "bona fide religious training or belief" does not include essentially political, sociological or philosophical views or a merely personal moral code; and

On the recommendation of the juvenile and domestic relations district court of the county or city in which the pupil resides and for such period of time as the court deems appropriate, any pupil who, together with his parents, is opposed to attendance at a school by reason of concern for such pupil's health, as verified by competent medical evidence, or by reason of such pupil's reasonable apprehension for personal safety when such concern or apprehension in that pupil's specific case is determined by the court, upon consideration of the recommendation of the principal and division superintendent, to be justified.

Each local school board shall develop policies for excusing students who are absent by reason of observance of a religious holiday. Such policies shall ensure that a student shall not be deprived of any award or of eligibility or opportunity to compete for any award, or of the right to take an alternate test or examination, for any which he missed by reason of such absence, if the absence is verified in a manner acceptable to the school board.

A school board may excuse from attendance at school:

On recommendation of the principal and the division superintendent and with the written consent of the parent or guardian, any pupil who the school board determines, in accordance with regulations of the Board of Education, cannot benefit from education at such school; or

On recommendation of the juvenile and domestic relations district court of the county or city in which the pupil resides, any pupil who, in the judgment of such court, cannot benefit from education at such school.

Local school boards may allow the requirements to be met under the following conditions:

For a student who is at least 16 years of age, there shall be a meeting of the student, the student's parents, and the principal or his designee of the school in which the student is enrolled in which an individual student alternative education plan shall be developed in conformity with guidelines prescribed by the Board, which plan must include:

Career guidance counseling;

Mandatory enrollment and attendance in a preparatory program for passing a high school equivalency examination approved by the Board of Education or other alternative education program approved by the local school board with attendance requirements that provide for reporting of student attendance by the chief administrator of such preparatory program or approved alternative education program to such principal or his designee;

Mandatory enrollment in a program to earn a Board of Education-approved career and technical education credential, such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment;

Successful completion of the course in economics and personal finance required to earn a Board of Education-approved high school diploma;

Counseling on the economic impact of failing to complete high school; and

Procedures for re-enrollment to comply with the requirements.

A student for whom an individual student alternative education plan has been granted pursuant to this subsection and who fails to comply with the conditions of such plan shall be in violation of the compulsory school attendance law, and the division superintendent or attendance officer of the school division in which such student was last enrolled shall seek immediate compliance with the compulsory school attendance law as set forth in this article.

Students enrolled with an individual student alternative education plan shall be counted in the average daily membership of the school division.

A school board may, in accordance with the procedures set forth in Article 3 (§ 22.1-276.01 et seq.) of Chapter 14 and upon a finding that a school-age child has been (i) charged with an offense relating to the Commonwealth's laws, or with a violation of school board policies, on weapons, alcohol or drugs, or intentional injury to another person; (ii) found guilty or not innocent of a crime that resulted in or could have resulted in injury to others, or of an offense that is required to be disclosed to the superintendent of the school division pursuant to subsection of § 16.1-260; (iii) suspended pursuant to § 22.1-277.05; or (iv) expelled from school attendance pursuant to § 22.1-277.06 or 22.1-277.07 or subsection of § 22.1-277, require the child to attend an alternative education program as provided in § 22.1-209.1:2 or 22.1-277.2:1.

Whenever a court orders any pupil into an alternative education program, including a program preparing students for a high school equivalency examination approved by the Board of Education, offered in the public schools, the local school board of the school division in which the program is offered shall determine the appropriate alternative education placement of the pupil, regardless of whether the pupil attends the public schools it supervises or resides within its school division.

The juvenile and domestic relations district court of the county or city in which a pupil resides or in which charges are pending against a pupil, or any court in which charges are pending against a pupil, may require the pupil who has been charged with (i) a crime that resulted in or could have resulted in injury to others, (ii) a violation of Article 1 (§ 18.2-77 et seq.) of Chapter 5 of Title 18.2, or (iii) any offense related to possession or distribution of any Schedule I, II, or III controlled substances to attend an alternative education program, including, but not limited to, night school, adult education, or any other education program designed to offer instruction to students for whom the regular program of instruction may be inappropriate.

This subsection shall not be construed to limit the authority of school boards to expel, suspend, or exclude students, as provided in §§ 22.1-277.04, 22.1-277.05, 22.1-277.06, 22.1-277.07, and 22.1-277.2. As used in this subsection, the term "charged" means that a petition or warrant has been filed or is pending against a pupil.

### **Attendance Regulations (Policy JED-R)**

Regular and prompt school attendance is necessary for success in school. New Kent County Public Schools attendance regulations have been created in response to Virginia State Law for compulsory school attendance.

In accordance with State Law 22.1-258, parents or guardians must advise school officials of the reason(s) for a child's absence. In addition, school officials are charged with the responsibility for enforcing the state's compulsory school attendance law.

The NKCPS administration requests that all parents call their child's school by **10:00 a.m.** whenever their child is absent. If the school has not been notified by **10:00 a.m.**, the school will make a reasonable attempt to contact the parent/guardian by telephone to obtain an explanation for their student's absence if we have not received notification. Therefore, it is important that all contact numbers *and* mailing addresses be updated as needed.

A student must be present for at least one hour to be counted as present for the day. The principal may waive this requirement under extenuating circumstances such as a shortened school day or for other reasons presented on a case-by-case basis.

All absences and tardies will be determined either excused or unexcused.

Excused absences **will be** considered for:

Personal illness  
Death in the family  
Religious observance  
Medical, professional or legal appointments  
Court appearance  
Other educational experiences (prior administrative approval is required with appropriate attendance form completed and returned three [3] school days prior to absence).  
Physical emergency conditions (i.e. fire, flood, storm)

The school administrator, social worker, or attendance committee will require any student (grades K-12) who receives a total of five (5) absences per semester at the high school level or ten (10) absences per year at the elementary or middle school level to either provide documentation other than parental notes in order for additional absences to be excused and/or meet with the attendance committee. Such documentation must include notes from a doctor or dentist, or a note from the judge for a court appearance.

## **Division Wide Procedures for School Absences**

### Excused Absences

If students are absent for the reasons cited above, they will be marked with an excused absence. On a daily basis school officials will make a reasonable effort to contact parents of each student not in attendance. Parents are asked to provide the school with a reason for the absence. Parents have two (2) *school days after the student returns to school* to provide such notice. If after two (2) *school days* no reason is provided, the absence will be considered unexcused.

Students will be allowed to make up all assignments missed as a result of excused absences. Teachers will determine when assignments are due, not to be more than three (3) school days following their return to the teacher's class. The administration may extend this makeup period for extenuating circumstances.

### Unexcused Absences

Students will be marked with an unexcused absence if the parent fails to provide the school with a written or verbal reason for the absence, or if the student's absence is for a reason other than those listed above. Parents have **two (2) school days after student returns to school** to provide such notice.

### Regulations for Elementary Schools

School attendance is important. Students who attend school regularly are more likely to feel connected to the school community, develop stronger relationships with teachers and other students, and are more likely to graduate. Attending school regularly sets a student up for a strong future.

New Kent County Public Schools is committed to the success of every student. We also realize the important habit of coming to school regularly. We have high expectations for our students and can help our students achieve their goals when they are in school.

Unexcused absences will be addressed during the school year as follows:

- 3<sup>rd</sup> Unexcused Absence – Letter sent to parents by principal advising parents of the number of absences.
- Prior to the 10<sup>th</sup> Unexcused Absence – A parent conference will be required and be scheduled by the school social worker or designee. An Attendance Intervention Plan (AIP) will be developed by the school's attendance committee. This plan will identify the steps parents, the student, and the school will take to avoid any future unexcused absences or attendance concerns by the student. (Virginia Code §22.1-258) If a parent fails to participate in the Attendance Intervention Plan conference, a court referral by the school social worker may result.
- If the student accumulates additional unexcused absences after this conference, the school social worker may refer the matter to the court services unit according to Virginia Code §22.1-258

### Procedures for Submitting Assignments Due to Absences

If a student is absent from school, make-up assignments should be submitted to the student's teacher(s) within three to five (3-5) school days of the student returning to school. The administrator may extend this makeup period for extenuating circumstances.

### Regulations for Middle/High School

Unexcused absences will be addressed during the school year as follows:

- 3<sup>rd</sup> Unexcused Absence – Letter sent to parents by principal advising parents of the number of absences.
- Prior to the 10<sup>th</sup> Unexcused Absence – A parent conference will be required and an Attendance Intervention Plan (AIP) will be developed. This plan will identify the steps parents, the student, and the school will take to avoid any future unexcused absences by the student. (Virginia Code §22.1-258) If a parent fails to participate in the Attendance Intervention Plan conference, a court referral by the school social worker may result.
- If the student accumulates additional unexcused absences after this conference, the school social worker may refer the matter to the court services unit according to Virginia Code §22.1-258.

### Procedures for Submitting Assignments due to Absences

#### Excused Absences

Understandably there are times when a student is unable to attend school. When a student is absent it is important that he/she complete the work in a timely manner to ensure continuity of the course. Students with an excused absence will be able to make up the work within two days of attending school to receive full credit. After the first two days, there will be a 10 point deduction per day, for the next three consecutive school days. After 5 total days, the work will not be accepted for credit.

Extensions for excused absences may be granted due to extenuating circumstances. An extended illness of three days or more may be considered an extenuating circumstance where additional time may be allotted.

#### Unexcused Absences

Students with an unexcused absence will be allowed to turn in the work on the day of return utilizing class time, IE, or the afterschool program. The student will receive a 10-point deduction for work turned in the day of his/her return. There will be a 10 point deduction for 3 consecutive school days. The student may turn in the work on the fourth day of his/her return with a 10 point deduction after which the assignment will not be accepted for credit.

All students have the opportunity to make arrangements to attend the after-school program if they cannot complete the assignment on the day of return (excused absences) otherwise the 10 point deduction is held.

Note:

For any work or assessments assigned or announced prior to a student's absence, it is expected the work be turned in or made up on the day\* of return, regardless of which type of absence (Unexcused or Excused). Excused absences will earn full credit and Unexcused Absences will receive a 10-point deduction each day thereafter.

\*Days means actual days in school- not class periods. Therefore, if a student missed a class on an A day, and returns on a B day- the work is still due on the day of return.

\*It is the student's responsibility to make every effort to meet with the teacher to make up work/tests/etc.

#### Absence for an Extended Period of Time

If a student is going to be out for any extended period of time, parents should contact their child's school administrator and/or teacher(s) so work can be sent home to help them keep up with the class work. Students who are going to be out for ten (10) or more days due to illness may be eligible for homebound instruction. Parents may contact the guidance department at their student's school to determine if their child is eligible for homebound instruction.

### Late Arrival to School

Good attendance and arriving at school on time are absolutely necessary for a child's success in school. A tardy is considered arriving late.

Students arriving late to school will be dealt with on an as needed basis by the building administrator at each school. Students who are late to school will not be permitted to enter class without a note from the main office staff. Unexcused tardiness to school will result in disciplinary consequences that are the same as those set forth for "Tardiness to Class" in the NKCPS Code of Student Conduct.

NOTE: This policy applies to all students, including students 18 years of age or who may be legally emancipated. All tardy notes must accompany the student.

### Disciplinary Response

All students on school grounds are expected to be in their assigned classes. In the event a student is suspended from school for any reason, the number of suspension days will be included in a student's cumulative absence total.

### Early Dismissal

No student who has entered the school for the day shall be permitted to leave the premises except for sickness, attendance of a class at another location or for other reasonable causes and only with the permission of the parent and a school administrator. Parent permission can be secured with a signed and dated parent note or parent phone call to a school official.

## **Parental Responsibility**

The following information regarding parental responsibilities is excerpted from the Code of Virginia § 22.1-279.3.

Parental Responsibility and Involvement Requirements:

Each parent of a student enrolled in a public school has a duty to assist the school in enforcing the standards of student conduct and attendance in order that education may be conducted in an atmosphere free of disruption and threat to persons or property, and supportive of individual rights.

A school board shall provide opportunities for parental and community involvement in every school in the school division.

Within one calendar month of the opening of school, each school board shall, simultaneously with any other materials customarily distributed at that time, send to the parents of each enrolled student (i) a notice of the requirements of this section and (ii) a copy of the school board's standards of student conduct. These materials shall include a notice to the parents that by signing the statement of receipt, parents shall not be deemed to waive, but to expressly reserve, their rights protected by the constitutions or laws of the United States or the Commonwealth and that a parent shall have the right to express disagreement with a school's or school division's policies or decisions.

Each parent of a student shall sign and return to the school in which the student is enrolled a statement acknowledging the receipt of the school board's standards of student conduct and the notice of the requirements of this section. Each school shall maintain records of such signed statements.

The school principal may request the student's parent or parents, if both parents have legal and physical custody of such student, to meet with the principal or his designee to review the school board's standards of student

conduct and the parent's or parents' responsibility to participate with the school in disciplining the student and maintaining order, and to discuss improvement of the child's behavior and educational progress.

In accordance with the due process procedures set forth in this article and the guidelines required by § 22.1-279.6, the school principal may notify the parents of any student who violates a school board policy when such violation could result in the student's suspension, whether or not the school administration has imposed such disciplinary action. The notice shall state (i) the date and particulars of the violation; (ii) the obligation of the parent to take actions to assist the school in improving the student's behavior; and (iii) that, if the student is suspended, the parent may be required to accompany the student to meet with school officials.

No suspended student shall be admitted to the regular school program until such student and his parent have met with school officials to discuss improvement of the student's behavior, unless the school principal or his designee determines that readmission, without parent conference, is appropriate for the student.

Upon the failure of a parent to comply with the provisions of this section, the school board may, by petition to the juvenile and domestic relations court, proceed against such parent for willful and unreasonable refusal to participate in efforts to improve the student's behavior, as follows:

If the court finds that the parent has willfully and unreasonably failed to meet, pursuant to a request of the principal as set forth in subsection of this section, to review the school board's standards of student conduct and the parent's responsibility to assist the school in disciplining the student and maintaining order, and to discuss improvement of the child's behavior and educational progress, it may order the parent to so meet; or

If the court finds that a parent has willfully and unreasonably failed to accompany a suspended student to meet with school officials pursuant to subsection, or upon the student's receiving a second suspension or being expelled, it may order (i) the student or his parent, or both, to participate in such programs or such treatment as the court deems appropriate to improve the student's behavior, including participation in parenting counseling or a mentoring program, as appropriate or (ii) the student or his parent, or both, to be subject to such conditions and limitations as the court deems appropriate for the supervision, care, and rehabilitation of the student or his parent. In addition, the court may order the parent to pay a civil penalty not to exceed \$500.

The civil penalties established pursuant to this section shall be enforceable in the juvenile and domestic relations court in which the student's school is located and shall be paid into a fund maintained by the appropriate local governing body to support programs or treatments designed to improve the behavior of students as described in subdivision G 2. Upon the failure to pay the civil penalties imposed by this section, the attorney for the appropriate county, city, or town shall enforce the collection of such civil penalties.

All references in this section to the juvenile and domestic relations court shall be also deemed to mean any successor in interest of such court.

### **Acceptable Computer System Use (Policy IIBEA/GAB)**

The school board provides a computer system, including the internet, to promote educational excellence by facilitating resource sharing, innovation and communication. The term computer system includes, but is not limited to, hardware, software, data, communication lines and devices, terminals, display devices, printers, CD, DVD and other media devices, tape or flash drives, storage devices, servers, mainframe and personal computers, tablets, laptops, telephones, cameras, projectors, multimedia devices, workstations, the internet and other electronic services and internal or external networks. This includes any device that may be connected to or used to connect to the school division's network or electronically stored division material.

All use of the division's computer system must be (1) in support of education and/or research, or (2) for legitimate school business. Use of the computer system is a privilege, not a right. Inappropriate use may result in cancellation of those privileges, disciplinary action, and/or legal action. Any communication or material generated using the computer system, including electronic mail, social media posts, instant or text messages, tweets, and other files, including communications and materials deleted from a user's account may be monitored, read and/or archived by division staff.

This policy applies to all users of the division's computer system. By using or accessing the computer system, the user agrees to abide by this policy and the Technology Use Guidelines established by the superintendent.

The superintendent is responsible for establishing Technology Use Guidelines, containing the appropriate uses, ethics and protocols for use of the computer system. The superintendent is also responsible for reviewing and updating, as necessary, the Guidelines at least every two years. It is the user's responsibility to know and follow this policy and the Technology Use Guidelines.

Guidelines include:

a prohibition against use by division employees and students of the division's computer equipment and communications services for sending, receiving, viewing or downloading illegal material via the Internet:

provisions, including the selection and operation of a technology protection measure for the division's computers having Internet access to filter or block Internet access through such computers, that seek to prevent access to:

- child pornography as set out in Va. Code §18.2-374.1:1 or defined in 18 U.S.C. §2256;
- obscenity as defined by Va. Code §18.2-372 or 18 U.S.C. §1460; and
- material that the school division deems to be harmful to juveniles as defined in Va. Code § 18.2-390, material that is harmful to minors as defined in 47 U.S.C. § 254(h)(7)(G), and material that is otherwise inappropriate for minors;

provisions establishing that the technology protection measure is enforced during any use of the Division's computers;

provisions establishing that all usage of the computer system may be monitored;

provisions designed to educate students and employees about appropriate online behavior, including interacting with students and other individuals on social networking websites and in chat rooms and cyber bullying awareness and response;

provisions designed to prevent unauthorized online access by minors, including "hacking" and other unlawful online activities;

provisions prohibiting the unauthorized disclosure, use and dissemination of photographic and/or personal information of or regarding minors; and

a component of Internet safety for students that is integrated in the division's instructional program.

Use of the school division's computer system shall be consistent with the educational or instructional mission or administrative function of the division as well as the varied instructional needs, learning styles, abilities and developmental levels of students.

The division's computer system is not a public forum.

Users of the division's computer system have no expectation of privacy for use of the division's resources or electronic devices including non-division owned devices while connected to division networks or computer resources.

Software and/or services may not be installed or downloaded on the division's computer system without the prior approval of the superintendent or superintendent's designee.

The failure of any user to follow the terms of this policy or the Technology Use Guidelines may result in loss of computer system privileges, disciplinary action, and/or appropriate legal action.

The school board is not responsible for any information that may be lost, damaged or unavailable when using the computer system or for any information retrieved via the Internet. Furthermore, the school board will not be responsible for any unauthorized charges or fees resulting from access to the computer system.

The school board reviews and amends, if necessary, this policy every two years.

## **School Health Services Procedures**

School nurses divide their time between two schools. A clinic aide provides daily coverage in the clinics. The clinic staff reviews health physicals and immunization records, screens students (height, weight, vision, hearing, and scoliosis), provides first aid, administers medications, and provides health education for students and families. Periodic inspections of students for communicable diseases or conditions (i.e. head lice) are conducted. Students who appear to have a communicable disease, that may spread, will be excluded from school until the condition is remedied.

The clinic also maintains emergency contact information. Please notify the clinic staff of any changes in such information. Sick children heal better at home. Please keep your children home if they are experiencing any of the following symptoms: Temperature 100 degrees or greater- keep at home until fever free for 24 hours without the aid of medication, vomiting/diarrhea- keep at home for 24hrs after symptoms have ended. A physician must treat eyes that are red, bloodshot, itchy, oozy, running or lashes that are stuck together upon awakening before returning to school. The student could have a condition called Pink Eye. Parents should treat cuts, burns, bruises and sprains that occur outside of school prior to sending the student to school. We are glad to follow the doctor's written instruction for minor care but we do not provide any emergency room services, physician care, or continued care for sick children.

Law governs administration of medication at school. The medication policy is in the school board policy manual. Please refer to the manual for questions. **Please do not send medication to school with your child.** If possible, parents are advised to give medications at home and on a schedule other than during school hours. However, if a medication must be given during school hours, adhere to the following:

- Medications must be ordered by a physician or dentist and permission must be written and given to the school nurse
- Medication must be brought to school by the parent or guardian
- Medication must be brought in the original container with the appropriate label intact (to make this easier ask your pharmacist to provide an additional properly labeled container at the time of refill to be left at school).

In order to have medication at school, a parent or guardian is required to have a medication form signed by the physician or dentist giving the school nurse permission to administer the medicine. Over-the-counter medication, also requires a written physician/dentist order. Parents can obtain the form by contacting the school nurse or by downloading the form from the school website. Forms may not be accepted via email.

Under the Occupational Safety and Health Administration (OSHA) exposure to blood borne pathogen plan, we are required to request that an individual's blood be tested if infectivity status is unknown when a situation indicates that the potential exposure to blood borne pathogens has occurred. Under 32.1-45.1 Code of Virginia, the person(s) whose body fluids were involved shall be deemed to have consented to testing for infection with human immunodeficiency virus.

### **Possession of Medication and Prescription Drugs**

No student may have in his/her possession any unauthorized medication or prescription drug, even if recommended or prescribed for the student's use. "Medication" shall mean any drug or other substance used in treating diseases, healing or relieving pain, including all over-the-counter drugs such as aspirin, cough syrups, gargles, caffeine pills, and the like. Please see School Board Policy JHCD for information on authorized medications and self-administration.

### **Administration of Medication at School Information (Policy JHCD-R)**

Whenever possible, the parent or guardian should make arrangements so that medication can be administered at home, before, and/or after school. However, there may be circumstances when it is necessary for a student to take medication during school hours. If this is necessary, the following information may be helpful.

Medications are administered by or under the supervision of the Registered Professional School Nurse. The Registered Professional School Nurse is licensed by the State of Virginia and practices under the Nurse Practice Act of Virginia. The Nurse Practice Act specifically states medications (prescription or non-prescription) may be administered only if they have been prescribed by a legal licensed practitioner (i.e., physician, dentist, nurse practitioner). For this reason, a medication permission form signed by the licensed practitioner is required for all medications administered at school along with written permission from the parent/guardian.

If your child has a chronic condition (i.e., headaches, menstrual cramps, orthodontic appliances, seasonal allergies) for which he/she usually takes OTC (over-the-counter) medications (i.e., Tylenol, Advil, Benadryl, etc.), the medication permission form can be obtained from the licensed practitioner prior to the start of school. The form can be mailed to the practitioner's office along with a self-addressed, stamped envelope. The completed form should then be brought to school along with the medication in its original container with the proper label. (No medication in baggies, envelopes, tissues or plastic wrap.)

Another option for providing the school with a completed medication permission form would be to have the licensed practitioner's office fax it to the school nurse at the appropriate school. The fax numbers for the schools are as follows: New Kent Elementary School - 966-2506; George W. Watkins Elementary School - 932-8459; New Kent Middle School - 966-2703; and New Kent High School - 966-2773.

For prescription medicines ask the licensed practitioner to request two (2) bottles on the prescription, one for school and one for home. This will provide both the parent/guardian and the school the labeled containers needed to safely dispense medications.

Students who have asthma and are prescribed inhalers, should request the licensed practitioner order two (2) inhalers on the prescription, one to remain at home and one to remain at school at all times. This will prevent the inhaler not being readily available at school when needed.

If your child has a diagnosis of asthma and must carry his/her inhaler at all times, a physician's order and parental permission is required. The physician's order must state that the student has permission to carry the inhaler with him/her while at school (this includes the school bus, field trips, and other school-sponsored activities and events).

Please be advised that it will be the student's responsibility to make sure that the inhaler is in his/her possession at all times and that it is in proper working order (not expired or empty). Please see School Board Policy JHCD for additional information

If your child has a diagnosis of anaphylactic reaction and it is advised by the physician that he/she must carry and be allowed to self-administer auto-injectable epinephrine, it is required that written notice from the student's physician states:

- student's name
- that the student has approval to self-administer prescribed auto-injectable epinephrine
- the name and dosage of the medication and the frequency in which it is to be administered and the circumstances which may warrant the use of auto-injectable epinephrine
- that the student has demonstrated the ability to administer auto-injectable epinephrine safely and effectively.

Please be advised that it will be the student's responsibility to make sure that the medication is in his/her possession at all times during the school day (this includes field trips, the school bus and all other school-sponsored activities and events).

Before permission to possess and self-administer auto-injectable epinephrine and metered-dose inhalers is granted, a consultation must occur with the parent and school nurse. Please see School Board Policy JHCD for additional information.

Each enrolled student who is diagnosed with diabetes, with parental consent and written approval from the prescriber, is permitted to carry with him and use supplies, including a reasonable and appropriate short-term supply of carbohydrates, an insulin pump, and equipment for immediate treatment of high and low blood glucose levels, and self-check his own blood glucose levels on school buses, on school property, and at school-sponsored activities.

Students may be permitted to carry and self-administer other medications when the following conditions are met:

- Written parental permission for self-administration of specified non-prescription medication is on file with the school.
- The non-prescription medication is in the original container and appropriately labeled with the manufacturer's directions.
- The student's name is affixed to the container.
- The student possesses only the amount of non-prescription medicine needed for one school day/activity.

Sharing, borrowing, distributing, manufacturing or selling any medication is prohibited. Permission to self-administer non-prescription medication may be revoked if the student violates this policy and the student may be subject to disciplinary action in accordance with the Standards of Student Conduct.

Students are prohibited from possessing any unauthorized medication or prescription drugs, even if recommended or prescribed for the student's use. "Medication" shall mean any drug or other substance used in treating diseases, healing, or relieving pain, including all over-the-counter drugs such as aspirin, cough syrups, gargles, caffeine pills, and the like.

Student possession of unauthorized over-the-counter drugs and prescribed medication may result in the same interventions and consequences as controlled substances. For elementary students needing to take medication during school hours, the medication is to be brought to the school nurse by the parent/guardian in its original container with the prescribed dosage and method of administration clearly indicated. Secondary students (grades 6-12) may bring medication to school provided the medication is delivered to the school nurse at the beginning of the school day in its original container with the prescribed dosage and method of administration clearly indicated.

If you have any questions regarding New Kent County Public Schools' Medication Administration Policy, please feel free to contact your child's school nurse. Medication permission forms can be obtained in all the school clinics.

### **Food Allergy Management (Policy JHCF-R2)**

New Kent County Schools recognizes that food allergies, in some instances, may be severe and even occasionally life-threatening. The foods most likely to cause allergic reactions are peanuts, tree nuts, dairy products, eggs, soy, wheat, fish, and shellfish. Although most food allergies produce symptoms that are uncomfortable, persons with allergies to the above listed foods can suffer more serious consequences. Our goal is to help students learn how to manage their food allergies while providing an environment where the risk of exposure is reduced. The school cannot achieve this goal alone and student and family involvement are critical. Ultimately the primary responsibility for reducing the risks associated with food allergies rests with the student and his parents.

New Kent County Schools cannot guarantee that a student will never experience an allergy-related event while at school. New Kent County Schools is committed to student safety, and therefore has created this policy to reduce the risk that children with allergies will have an allergy-related event.

#### Parent/Family Responsibilities

- Notify the school of the child's allergies.
- Provide written medical documentation, instructions, and medications as directed by a physician, using the Food Allergy Action Plan.
- Provide clearly labeled medications per doctor's orders and in accordance with New Kent County Schools medication policy. Replace medications after use or upon expiration.
- Provide emergency contact information and update as needed.
- Review the lunch menu and contact the food service director for ingredient listings as needed.
- Provide meals or treats for their students if uncertain about possible exposure to allergy-causing foods.
- Plan with the teacher for unexpected food (treats).
- May request information about a student's allergy be provided to and sent home with classmates.
- Request a child study meeting if the student's needs rise to the level of 504 consideration.
- Educate the child in the self-management of their food allergy including:
  - Safe and unsafe foods
  - Symptoms for allergic reactions
  - How and when to tell an adult they may be having an allergy-related problem
  - How to read food labels (age appropriate)

#### School Responsibilities

- Review health records submitted by parents and physicians and identify students with allergies.
- Share information pertaining to a student's allergies with the appropriate faculty and staff that have contact with the student, but otherwise will be kept as confidential as possible.
- Provide emergency training to staff annually and as needed, including, but not limited to administrator, teacher and bus driver.
- Designate school personnel who are properly trained to administer medications in accordance with the State Nursing and Good Samaritan Laws governing the administration of emergency medications.
- Ensure a trained person attends all functions where the student is present, i.e. field trips.
- Foods that specifically list nut or peanut products on the ingredient label will not be offered on the main serving line in our cafeterias. This does not apply to items sold on the a la carte or snack lines. (Parents and students may obtain lists of ingredients for any food served by contacting the Food Service Director.)
- Food Services will provide food that all students may enjoy. In the case of a student with multiple or unusual allergies, New Kent Schools may require the student/family to provide lunch and snacks to ensure the student's safety.
- Enforce a "no-eating" policy on school buses with exceptions made only to accommodate special needs.
- Provide instruction to faculty and staff on how to recognize symptoms of an allergic reaction and to respond appropriately.
- Provide seating accommodations at meal times as needed, i.e. designate a table in the cafeteria "peanut free" and/or "allergy aware", allow the student to eat meals in office.
- Ensure that cafeteria tables are cleaned appropriately between meals.
- Code students appropriately in our food service "point of service" system, so that students with food allergies can be easily identified as they move through the cafeteria line.
- New Kent Schools will attempt to avoid serving food with nuts, but cannot guarantee that products with nuts will never be present on campus or at school events. Likewise, New Kent Schools cannot monitor products sold at athletic events or special student sales, products brought for celebrations, or served on off campus trips. Therefore, persons with severe food allergies must carefully monitor their food in these situations.

#### Student Responsibilities

- Should not trade or share food with others.
- Should not eat anything with unknown ingredients or known to contain any allergen.

- Should be proactive in the care and management of their food allergies based on their developmental level.
- Should notify an adult immediately if they eat something they believe may contain the food to which they are allergic or if allergy symptoms appear.
- Know what you are allergic to and avoid allergens.
- Understand the symptoms of an allergic reaction.
- Wash hands before and after eating.
- Report teasing or harassment.
- May carry and self-administer epinephrine if appropriate in accordance with New Kent County Schools medication policy.

### **New Kent Public Schools Video Surveillance (Policy EB-1)**

The board authorizes the use of video cameras on school property to ensure the health, welfare, and safety of all staff, students, and visitors to school property, and to safeguard school facilities and equipment.

The school shall notify staff and students through student/parent and staff handbooks that video surveillance may occur on school property.

Students or staff in violation of board policies, administrative regulations, and building rules, or law shall be subject to appropriate disciplinary action. Others may be referred to law-enforcement agencies.

Video recordings may become a part of a student's educational record or a staff member's personnel record. The division shall comply with all applicable state and federal laws related to record maintenance and retention.

### **Notification Regarding Prosecution of Juveniles as Adults (Policy JFCL)**

The New Kent School Board will annually provide information developed by the Office of the Attorney General to students regarding laws governing the prosecution of juveniles as adults for the commission of certain crimes.

### **School Crisis, Emergency Management, and Medical Emergency Response Plan (Policy EB)**

Each school develops a written school, emergency management and medical emergency response plan as defined below. The school board includes the chief law-enforcement officer, the fire chief, the chief of emergency medical services agency, the executive director of the regional emergency medical services council, and the emergency management official of the locality, or their designees, in the development of such plans. The school board, the chief law-enforcement officer, the fire chief, the chief of emergency medical services agency, and the executive director of the regional emergency medical services council, and the emergency management official of the locality, or their designees, annually review each school's plan. The Department of Education and the Virginia Center for School and Campus Safety will provide technical assistance to the school division in the development of the plans. In developing these plans, schools may consult the model school crisis, emergency management and medical emergency response plan developed by the Board of Education and the Virginia Center for School and Campus Safety.

The school board designates the superintendent as emergency manager.

Each school annually conducts school safety audits as defined below. The results of such school safety audits are made public within 90 days of completion. The School Board may withhold or limit the release of any security plans, walk-through checklists and specific vulnerability assessment components as provided in the Virginia Freedom of Information Act, Va. Code § 2.-3705.2. The completed walk-through checklist will be made available upon request to the chief law-enforcement officer of the locality or that officer's designee. Each school maintains a copy of the school's safety audit, which may exclude such security plans, walk-through checklists, and vulnerability assessment components, within the office of the school principal and makes a copy of such report available for review upon written request.

Each school submits a copy of its school safety audit to the superintendent. The superintendent collates and submits all such school safety audits, in the prescribed format and manner of submission, to the Virginia Center for School and Campus Safety and shall make available upon request to the chief law-enforcement officer of the locality the results of such audits.

The superintendent establishes a school safety audit committee to include, if available, representatives of parents, teachers, local law-enforcement, emergency services agencies, local community services boards, and judicial and public safety personnel. The school safety audit committee reviews the completed school safety audits and submits any plans, as needed, for improving school safety to the superintendent for submission to the school board.

“School crisis, emergency management and medical emergency response plan” means the essential procedures, operations, and assignments required to prevent, manage, and respond to a critical event or emergency, including natural disasters involving fire, flood, tornadoes, or other severe weather; loss or disruption of power, water, communications or shelter; bus or other accidents; medical emergencies, including cardiac arrest and other life threatening medical emergencies; student or staff member deaths; explosions, bomb threats; gun, knife or other weapons threats; spills or exposures to hazardous substances; the presence of unauthorized persons or trespassers; the loss, disappearance or kidnapping of a student; hostage situations; violence on school property or at school activities; incidents involving acts of terrorism and other incidents posing a serious threat of harm to students, personnel, or facilities. The plan includes a provision that the Department of Criminal Justice Services and the Virginia Criminal Injuries Compensation Fund shall be contacted immediately to deploy assistance in the event of an emergency as defined in the emergency response plan when there are victims as defined in § Va. Code § 19.2-11.01, as well as current contact information for both.

“School safety audit” means a written assessment of the safety conditions in each public school to (1) identify and, if necessary, develop solutions for physical safety concerns, including building security issues and (2) identify and evaluate any patterns of student safety concerns occurring on school property or at school-sponsored events. Solutions and responses will include recommendations for structural adjustments, changes in school safety procedures, and revisions to the School Board’s standards for student conduct.

Each school will maintain records of regular safety, health and fire inspections that have been conducted and certified by local health and fire departments. The frequency of such inspections will be determined by the local school board in consultation with the local health and fire departments. In addition, the school administration will:

- equip all exit doors with panic hardware as required by the Uniform Statewide Building Code; and
- conduct fire drills at least once a week during the first month of school and at least once each month for the remainder of the school term. No fire drills will be conducted during periods of mandatory testing required by the Board of Education. Evacuation routes for students shall be posted in each room. At least one simulated lockdown and crisis emergency evacuation activity should be conducted early in the school year.

Each school has contingency plans for emergencies that include staff certified in cardiopulmonary resuscitation (CPR), the Heimlich maneuver, and emergency first aid.

In addition, the school administration ensures that the school has:

- written procedures to follow in emergencies such as fire, injury, illness, allergic reactions and violent or threatening behavior. The procedures include Policy JHCD Administering Medicine to Students. The plan is outlined in the student handbook and discussed with staff and students during the first week of each school year.
- space for the proper care of students who become ill;
- a written procedure, in accordance with guidelines established by the School Board for responding to violent, disruptive or illegal activities by students on school property or during a school sponsored activity; and
- written procedures to follow for the safe evacuation of persons with special physical, medical, or language needs who may need assistance to exit a facility.

## **Retention**

New Kent County Public Schools believes that student promotion/retention should be based on the academic and developmental needs of the child. These decisions are made on a case-by-case basis taking into consideration a holistic view of the child’s individual needs.

### **Elementary School**

The decision of retention, placement, or promotion is made as a team decision with teachers, administrators, and support personnel in partnership with parent(s)/guardian(s). Within the third marking period, student support teams will meet to

discuss the progress of each child that may not be progressing in the class as expected. The decision of retention, placement, or promotion will be based on the progress in the Standards of Learning, grade level assessments, standardized or norm-referenced assessments, and input from the team. The principal will review the recommendation from the team and make the final determination. Communication between the teacher and the parents will be at the direction of the school principal regarding the child's possible retention.

#### Middle School

Students who fail one core academic class during the regular school year will receive a student support plan at the beginning of the following year that will outline remediation efforts to include academic supports within the school day or during the after school program. This plan will provide expectations for the student, teacher, parent/guardian, and other school personnel. The plan will also outline goals for the student.

If a student fails two or more core academic classes, the school administration will seek the input of teachers, support personnel, and parent(s)/guardian(s) regarding whether the student should be retained in the current grade level or placed in the next grade level. The final decision will be made at the discretion of the administration and will be based upon progression through the Standards of Learning, grade level assessments, standardized or norm-referenced assessments, and recommendation of the teachers.

#### High School

Students at New Kent High School will follow the credit and course requirements as set forth in the most current *Regulations Establishing Standards for Accrediting Public Schools in Virginia*.

#### **Requirements for Promotion**

Grade 9 to 10	6 credits
Grade 10 to 11	12 credits

High school credit honors-level courses, as identified in the New Kent High School Program of Studies, will receive a 0.5 weight. Advanced Placement and Dual Enrollment (academic, transferable courses only) will receive a 1.0 weight. These weights are effective beginning in the 2014-2015 school year and will not be retroactively applied.

Example 1: A student earns a final grade of 86 B in World History II Honors. With the 0.5 weight, this grade will be calculated in the student's GPA as a 3.5.

Example 2: A student earns a final grade of 91 A- in Advanced Placement Biology. With the 1.0 weight, this grade will be calculated in the student's GPA as a 4.7.

### **School Counseling Program**

Each school provides the following guidance and counseling services to all students:

- academic guidance which assists students and their parents to acquire knowledge of the curricula choices available to students, to plan a program of studies, to arrange and interpret academic testing, and to seek post-secondary academic opportunities;
- career guidance which helps students to acquire information and plan action about work, jobs, apprenticeships, and post-secondary educational and career opportunities;
- personal/social counseling which assists a student to develop an understanding of themselves, the rights and needs of others, how to resolve conflict and to define individual goals, reflecting their interests, abilities and aptitudes. Information and records of personal/social counseling will be kept confidential and separate from a student's educational records and not disclosed to third parties without prior parental consent or as otherwise provided by law. Parents may elect, by notifying their child's school in writing, to have their child not participate in personal/social counseling.

No student is required to participate in any counseling program to which the student's parents object.

The guidance and counseling program does not include the use of counseling techniques which are beyond the scope of the professional certification or training of counselors, including hypnosis, or other psychotherapeutic techniques that are normally employed in medical or clinical settings and focus on mental illness or psychopathology.

Parents are notified annually about the counseling programs which are available to their children. ## **Sex Offender Registry Notification (Policy KN)**

### Generally

Each school in the division registers with the Department of State Police to receive electronic notice of the registration, reregistration, or verification of registration information of any person required to register with the Sex Offender and Crimes Against Minors Registry (the Registry) within the division.

The superintendent establishes procedures regarding the use and distribution of information received from the Registry. Information received from the Registry may not be used to intimidate or harass.

### Visitors to Schools

When the school division learns that a parent, other than a parent who has been convicted of a Tier III offense as defined in Va. Code § 9.1-902, of an enrolled student is required to register with the Registry, the parent is notified in writing that he or she is barred from being present at school or at school functions without the express written approval of the student’s principal. Such approval must be obtained in advance of the proposed visit and will state the conditions under which the parent may be present. When such a parent is permitted at school or at school functions the parent is monitored to ensure that he or she does not come into contact with any children other than the parent’s own children.

When the school division learns that any person other than the parent of an enrolled student, who is required to register with Registry, but who has not been convicted of a Tier III offense, as defined in Va. Code § 9.1-902, seeks to be present at school or at school functions, the person is notified in writing that he or she is barred from being present at school or school functions without the express written approval of the principal of the school the person seeks to visit or which sponsors the event the person seeks to attend. Such approval must be obtained in advance of the proposed visit and, if obtained, will state the conditions under which the person may be present. One of the conditions will be that the person will be monitored to ensure the safety of students, staff, and others.

Principals consider requests to be present at school or at school sponsored activities from all persons who are required to register with the Registry but have not been convicted of a Tier III offense as defined in Va. Code § 9.1-902 in accordance with procedures established by the superintendent.

No adult who has been convicted of a Tier III offense, as defined in Va. Code § 9.1-902, may enter or be present during school hours and during school-related or school-sponsored activities on any property the person knows or has reason to know is a school or child day center property, school bus, or on any property, public or private, when such property is solely being used by an elementary or secondary school for a school-related or school-sponsored activity unless

- the person is a lawfully registered and qualified voter and is coming upon such property solely to vote;
- the person is a student enrolled at the school; or
- the person has obtained a court order pursuant to Va. Code 18.2-370.5.C allowing the person to enter and be present upon such property, has obtained the permission of the School Board or its designee for entry within all or part of the scope of the lifted ban, and is in compliance with the School Board's terms and conditions and those of the court order.
